

RESEARCH INTERESTS

Personalized (socially/physically) robots, Interactive robot learning from human feedback/demonstration, Human-Robot Interaction

EDUCATION

University of Michigan Ann Arbor, MI
Master of Health Informatics, GPA: 3.904/4.0 Aug 2022 - May 2024

Seoul National University Seoul, Korea
Bachelor of Science in Computer Science and Engineering, Minor in Social Welfare Mar 2016 - Feb 2022

CONFERENCE PAPERS

Analyzing facial features of engagement in children with Autism Spectrum Disorders.
Young Suh Hong, Kaleen Shrestha, Maja Matarić.
Currently under review.

EDBooks: AI-Enhanced Interactive Narratives for Programming Education.
Steve Oney, Yue Shen, Fei Wu, Young Suh Hong, Ziang Wang, Yamini Khajekar, Jiacheng Zhang, April Yi.
Currently under review. [Link](#)

Bandit-Supported Care Planning for Older People with Complex Health and Care Needs.
Gi-Soo Kim, Young Suh Hong, Tae Hoon Lee, Myunghee Cho Paik, Hongsoo Kim.
In Proceedings of the AICAS, 2023. [Link](#)

WORK EXPERIENCE

LG CNS July 2025 - Aug 2025
Research Intern at the Robotics Team. Led a project to design, optimize, and experiment a teleoperation-based data collection pipeline for training robotic manipulators using the Action Chunking Transformer (ACT) policy.

SCHOLARSHIP

NR-MHI (School of Information, University of Michigan) Fall 2022 - Winter 2024
Scholarship for graduate students with outstanding academic achievements

Seoul National University Alumni Association Spring 2016 - Spring 2019
Scholarship for undergraduate students with outstanding academic achievements

RESEARCH EXPERIENCE

Interaction Lab @ University of Southern California Los Angeles, CA
Volunteer Researcher, supervised by Prof. Maja Matarić Jun 2025 - Current

- Analyzed time-series data on human-robot interaction in educational settings using linear mixed-effects models, examining associations between participants' facial expressions and engagement to support the design of effective socially assistive robots for children with autism spectrum disorder.

University of Michigan

Research Assistant, supervised by Prof. Mark Newman

Ann Arbor, MI

Sept 2024 - Current

- Led web development and user study for “Personalizing Just-In-Time Adaptive Intervention (pJITAI) Toolbox,” a web platform to configure personalized reinforcement learning (RL) algorithms for healthcare purposes.

University of Michigan

Research Assistant, supervised by Prof. Pedja Klasnja

Ann Arbor, MI

Sept 2023 - Apr 2024

- Designed UI/UX prototypes and intervention model for a simulated mobile health chatbot, personalized to the user’s personality.
- Conducted a user study and statistically analyzed the effectiveness the mobile health intervention.

Spot Research Group @ University of Michigan

Research Intern, supervised by Prof. Steve Oney

Ann Arbor, MI

Jun 2023 - Sept 2023

- Implemented LLM-enhanced interactive programming education tool ‘EDBook.’ Designed the UI/UX, and the study design.
- Conducted a user study to examine the effectiveness, statistically analyzed the results.

Ulsan National Institute of Science and Technology & Seoul National University

Research Intern, supervised by Profs. Gi-Soo Kim & Hong Soo Kim

Seoul, Korea

Aug 2021 - Aug 2022

- Designed bandit algorithms (Thompson Sampling, Upper Confidence Bound) to predict optimal combinations of health interventions for older adults in nursing homes. Analyzed experimental results in Python.

Biointelligence Lab @ Seoul National University

Research Intern, supervised by Prof. Byoung-Tak Zhang

Seoul, Korea

Aug 2020 - Feb 2021

- Enhanced the accuracy of pick-and-place task of a mobile manipulator’s by implementing a dual-camera system using computer vision.
- Authored a bachelor’s dissertation titled “Dual-Camera-Based Real-Time Object Tracking for Mobile Manipulation Robot’s Pick-and-Place Task.”

TEACHING EXPERIENCE

Course Assistant

University of Michigan

Ann Arbor, MI

Fall 2024 - Winter 2025

- Graded undergraduate and master’s students’ assignments and provided written feedback for SI 500: Problem-solving with People, Information, and Technology, SI 106: Programs, Information and People.

VOLUNTEER WORK

Samsung Sorisaem Social Service Center

Mathematics tutor for children with hearing impairment

Seoul, Korea

Oct 2018 - Dec 2018

Yeomyung School

Tutor at high school for North Korean defectors

Seoul, Korea

Jul 2018 - Aug 2018

YWCA Social Service Center

Assist low-income older adults

Seoul, Korea

Jun 2018 - Jul 2018

Gaon Volunteer Group @ Seoul National University

Art and physical education teacher at an elementary school

Siem Reap, Cambodia

Aug 2016

TECHNICAL SKILLS

- **Programming:** Python, Java, React, JavaScript, HTML, SQL, CSS
- **Software:** PyTorch, NumPy, Pandas
